An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Scott Malpede on October 20, 2004.

The application has been amended as follows:

Claim 1, last line, -- , said operating force being caused by insertion of said case member into electronic equipment – has been inserted before the period.

The following is an examiner's statement of reasons for allowance: none of the prior art of record discloses or teaches a lever member which has a first end extending to an outside of the case member from at least one side surface thereof perpendicular to the first end face of the case member, an operating force being applied to the first end of the lever member by insertion of the case member into electronic equipment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
